Prairie View A&M University, Prairie View, TX
Bachelor of Science in Computer Science, College of Honors | Minor: Psychology

Expected May 2027
GPA: 3.80

Relevant Courses: Data Structures, Algorithms, Parallel Computing, Database Management, Senior Design I & II, Artificial Intelligence

Work Experience

Prairie View A&M University

Prairie View, TX

Student Assistant – Center for Information Technology Excellence (CITE)

August 2025 – Present

- Managed enterprise network configurations using Cisco DNAC, WLC, Juniper Mist, and Cisco Catalyst switches while configuring VLANs, switch ports, SSIDs, and access controls for secure campus operations.
- Assisted deployment, troubleshooting, and validation of 80+ wireless access points across multi-floor campus environments.

Prairie View A&M University

Prairie View, TX

Research Assistant – Advanced AI and Big Data for Military Applications

August 2024 – May 2025

- Developed intrusion detection models using Random Forest, Chi-Square, and RFE for multi-attack classification.
- Improved model performance to a 0.92 F1-score using XGBoost with preprocessing and feature engineering.

Technology Projects

FLARE – AI-Based Radiology & Epidemiology System

August 2025 – April 2026

- Designed and implemented a multi-modal CT/MRI detection pipeline achieving 87% accuracy and 0.9459 ROC-AUC using PyTorch with Grad-CAM explainability.
- Built and deployed a full-stack clinical application (Flask + React) integrated with HPC infrastructure (SLURM), ngrok tunneling, and Vercel hosting.

Leadership Experience

CODE (Council of Distinguished Engineers)

May 2026 – Present

President

- Appointed President of the College of Engineering's lead representative student organization, collaborating directly with the Dean.
- Planning initiatives to expand access to industry opportunities, certifications, and career development resources

IBM Z Student Ambassador

Spring 2026 – Present

- Represent IBM Z Systems and promote enterprise computing technologies.
- Completed mainframe training and initiated student engagement efforts.

BDPA (Black Data Processing Associates)

August 2025 – Present

President

- Led infrastructure audit documenting 1,706 network assets to improve campus IT accountability.
- Organized HP Inc. site visit for 20+ students and strengthened partnerships with IBM, Fidelity, and alumni.

AWS Student Ambassador

Summer 2026 – Present

- Selected to promote AWS cloud learning and expand access to technical development resources across campus.
- Planning fall initiatives to connect students with AWS Skill Builder, AWS learning pathways, and hands-on cloud training opportunities.

Organizations

ColorStack

Spring 2026 – Present

SWE (Society of Women Engineers)

Fall 2024 – Present

BDPA (Black Data Processing Associates)

Fall 2024 – Present

Awards & Certifications

CompTIA Security+

June 2026

CodePath: Intermediate Cybersecurity

April 2026

Skills

Programming: Python, C++, SQL, JavaScript | Web & APIs: Flask, React, REST APIs | Machine Learning: PyTorch, TensorFlow, Scikit-learn, XGBoost | Cybersecurity & Networking: Splunk, Wireshark, Nmap, OpenSSL, Network Tools | Systems & Deployment: Linux, HPC (NCSA Delta), Slurm, ngrok, Vercel | Networking Technologies: Cisco DNAC, Cisco WLC, Juniper Mist, Ekahau | Tools: Git/GitHub, VS Code, PuTTY
